

Prompt Life v0.28.10 Exercise Human Feedback Sheet

Prompt Life is under construction and pending human review. No badge is issued from this test.

When you see a Try Interaction or Journey exercise, please note:

1. What did you think you were supposed to do?
2. Did you know what to tap, drag, choose, or sort?
3. Did the exercise help you understand the model?
4. Did it feel different from the checkpoint?
5. Did wrong choices teach something useful?
6. Were any labels too long or cramped?
7. Did anything feel like a game that was not useful here?
8. Did any interaction feel unnecessary?
9. What would you simplify or remove?

Please flag:

- unclear instructions
- tiny tap targets
- crowded text
- hidden feedback
- bottom-nav overlap
- jargon
- exercises that feel redundant with the checkpoint
- exercises that should be moved to Play
