

Prompt Life v0.28.11 Small Human Test Packet

Status

- Prompt Life is under development.
- The badge is not issued.
- The Badge page is under construction and pending human review.
- Feedback is requested so the app can improve before broader testing.

Tester Task

Please try:

- 3 to 5 Journey learning cards.
- At least 2 checkpoint question sets.
- At least 2 Try Interactions.
- One Glossary lookup.
- One Play activity if you have time.
- A quick Badge page glance.

Main Feedback Questions

- What confused you?
- What helped you understand the model?
- Which picture was most useful?
- Which picture was least useful?
- Which checkpoint felt unfair?
- Which wrong-answer feedback taught you something?
- Which Try Interaction felt useful?
- Which Try Interaction felt unnecessary?
- Did anything feel too technical?
- Did anything feel childish?
- Did anything feel overconfident?
- Did anything make LLMs feel more mysterious instead of less?

Specific Watch Areas

For each item below, please ask: Did the exercise help? Was the action obvious? Was it redundant with the visual aid or checkpoint? Was any wording too abstract? Would you simplify or remove it?

- What Is an LLM?
- Vectors
- Tensors
- Sampling
- Collective Intelligence, Extracted
- Benefits Worth Taking Seriously
- Model Literate Synthesis

UI Friction

Please flag:

- Bottom nav overlap.
- Scrolling problems.
- Text overflow.
- Hard-to-tap choices.
- Too much reading on one screen.
- Unclear next step.

Badge Language

- Is it clear that the badge is not yet issued?
- Do the learning objectives feel credible?
- Would this evidence model feel meaningful after review?
