

Prompt Life v0.25.7 Prompt vs Response Crisp Diagram Repair

Repaired the Prompt vs Response visual so all four lanes are visible, contained, and readable on mobile.

Build, Pages build, typecheck, and answer audit passed.

What Changed

- Replaced the crowded Prompt vs Response SVG layout with a coded HTML/CSS diagram.
- Removed connector lines and fixed SVG text positioning.
- Used four stacked cards: Given prompt, Response so far, Next token, and Updated context.
- Fixed the review-gallery compact height rule so the fourth Updated context row is no longer clipped.
- Bumped the visible app version to `v0.25.7`.

Files Changed

- `src/components/VisualAids.tsx`
- `src/styles/global.css`
- `src/main.tsx`
- `docs/REVIEW_NOTES.md`
- `docs/reports/screenshots/v0-25-7-prompt-response-crisp-390.png`
- `docs/reports/screenshots/v0-25-7-prompt-response-crisp-320.png`
- `docs/reports/screenshots/v0-25-7-prompt-response-crisp-screenshots.json`

Verification

- `npm run typecheck` : passed.
- `npm run build` : passed with the existing Vite large-chunk warning.
- `npm run build:pages` : passed with the existing Vite large-chunk warning.
- `npm run audit:answers` : passed.
- Browser QA: four cards visible at 390px and 320px; Updated context stays inside the canvas; no horizontal overflow.

PROMPT-RESPONSE

Prompt vs Response

Lesson: Prompt vs Response

Pattern: promptResponse

Variant: neon-flow

1 GIVEN PROMPT
provided before generation

Describe two pets conflict

2 RESPONSE SO FAR
generated tokens

A jealous dog

3 NEXT TOKEN
newly selected

chased

4 UPDATED CONTEXT
what the next run sees

prompt A jealous dog chased

Prompt vs Response

Given context versus generated tokens

Prompt tokens are given to the model; response tokens are generated one at a time and appended to the next context.

1 Given prompt The request "Describe two pets in conflict" is already provided input.

2 Generated response The response-so-far

390px review route capture
