

Prompt Life v0.27.13 Badge PNG Integration Report

Generated 2026-06-10T04:38:01.766Z after replacing the Badge placeholder with the supplied PNG.

The Badge status card now uses the supplied Prompt Life: Model Literate PNG at the top of the card. Under construction, pending human review, and not yet issued remain in accessible HTML text.

Changes

- Moved the supplied PNG into `public/assets/promptlife/brand/model-literate-badge-v0-27-13.png` .
- Replaced the old placeholder element with an `img` element using descriptive alt text.
- Removed the two-column Badge status card layout so the image remains at the top of the card.
- Bumped the app/package version to `0.27.13` .

Verification

Check	Result
<code>npm run typecheck</code>	Passed.
<code>npm run build</code>	Passed with existing Vite large-chunk warning.
<code>npm run build:pages</code>	Passed with existing Vite large-chunk warning.
<code>npm run audit:learner-copy</code>	Passed.
Badge 390px	PNG loaded, image appears above copy, no horizontal overflow, version shows v0.27.13.
Badge 320px	PNG loaded, image appears above copy, no horizontal overflow, version shows v0.27.13.
