

PROMPT LIFE APP COPY UPDATE

v0.25.3 Fine-Tuning Wording

Change Made

Changed the Fine-Tuning Brain Bridge phrase from `house style` to `corporate norms`.

Updated the matching current Adapter glossary metaphor so current learner-facing app copy no longer uses `house style`.

Files Changed

- `src/data/content.ts`
- `src/main.tsx`
- `docs/REVIEW_NOTES.md`

Verification

- `npm run typecheck` : passed.
- `npm run build` : passed with the existing Vite large-chunk warning.
- Screenshot QA at 390px: corporate norms visible, house style absent, no horizontal overflow.

major reason to fine-tune or otherwise shape behavior.

METAPHOR

Useful picture

Carving useful trails through an already huge terrain.

BRAIN BRIDGE

Helpful, then limited

HELPFUL COMPARISON

Like coaching someone to follow corporate norms.

WHERE IT BREAKS

The model is not choosing a new identity or values. Training changes output patterns.

TINY INTERACTION
