

Prompt Life v0.28.6 Visual Asset Intake Report

Generated 2026-06-14T03:21:22.838Z. This pass creates a safe intake system for future Journey Image 2 assets. No new images were generated and no current Journey visuals were replaced.

AUDIT ISSUES

Intake System

- Folder structure created under `public/assets/journey-visuals/v0-28/`.
- Manifest created with pending Image 2 concept-card entries.
- Renderer can keep coded visuals, render live manifest images, or show a clean pending placeholder.
- Pending manifest entries do not replace current coded visuals.
- Validation command: `npm run audit:visual-assets`.

Renderer Behavior

- `pending-asset`: current coded/generated visual remains active.
- `pending-placeholder`: learner sees “Visual update pending” with normal callouts below.
- `live`: manifest image renders from the optimized asset path and must pass thumbnail, text-verification, dimension, and file-size checks.

Manifest Entries

STAGE	CARD	STATUS	PATHS	ALT	CAPTION	AUDIT
1	What Is an LLM? what-is-llm	pending-asset	/assets/journey-visuals/v0-28/optimized/what-is-an-llm.png /assets/journey-visuals/v0-28/thumbnails/what-is-an-llm.png	A prompt ribbon enters a folded-paper model cloud and one response-token glow emerges.	A polished concept image will show a prompt entering a learned model space and one token emerging while the HTML callouts carry the exact mechanics.	ok

STAGE	CARD	STATUS	PATHS	ALT	CAPTION	AUDIT
1	Pretraining pretraining	pending-asset	/assets/journey-visuals/v0-28/optimized/pretraining.png /assets/journey-visuals/v0-28/thumbnails/pretraining.png	Many blank paper streams shape glowing model pattern layers before use.	A future concept image will show broad pattern learning from many examples without implying perfect source memory.	ok
1	Alignment alignment	pending-asset	/assets/journey-visuals/v0-28/optimized/alignment.png /assets/journey-visuals/v0-28/thumbnails/alignment.png	Folded paths and light guardrails suggest behavior shaping without a conscious model.	A future concept image will show behavior shaping and guardrails while HTML keeps the conscience boundary explicit.	ok
6	Multimodal AI multimodal	pending-asset	/assets/journey-visuals/v0-28/optimized/multimodal-ai.png /assets/journey-visuals/v0-28/thumbnails/multimodal-ai.png	Text, image, audio, and video-like paper forms flow into a shared representation field.	A future concept image will show multiple media types represented together without implying human sensation.	ok
6	The Perfect Storm perfect-storm	pending-asset	/assets/journey-visuals/v0-28/optimized/perfect-storm.png /assets/journey-visuals/v0-28/thumbnails/perfect-storm.png	Several folded-paper streams converge into one modern capability cloud.	A future concept image will show convergence without placing all ingredient labels inside a cramped diagram.	ok
7	Collective Intelligence, Extracted collective-intelligence	pending-asset	/assets/journey-visuals/v0-28/optimized/collective-intelligence.png /assets/journey-visuals/v0-28/thumbnails/collective-intelligence.png	Many blank human-created traces light a folded-paper lantern of learned patterns.	A future concept image will show human-created traces powering model patterns while provenance questions remain human.	ok
7	Costs We Must Count costs-we-must-count	pending-asset	/assets/journey-visuals/v0-28/optimized/costs-we-must-count.png /assets/journey-visuals/v0-28/thumbnails/costs-we-must-count.png	A glowing answer card is connected to hidden infrastructure, labor, privacy, and governance shapes.	A future concept image will make hidden infrastructure and social costs visible without inventing metrics.	ok
7	Risk vs Myth risk-myth	pending-asset	/assets/journey-visuals/v0-28/optimized/risk-vs-myth.png /assets/journey-visuals/v0-28/thumbnails/risk-vs-myth.png	A grounded review path sits beside fading myth shapes, suggesting practical risk literacy.	A future concept image will separate practical risk literacy from unsupported myths without fear-heavy imagery.	ok

STAGE	CARD	STATUS	PATHS	ALT	CAPTION	AUDIT
8	Benefits Worth Taking Seriously benefits-worth-taking-seriously	pending-asset	/assets/journey-visuals/v0-28/optimized/benefits-worth-taking-seriously.png /assets/journey-visuals/v0-28/thumbnails/benefits-worth-taking-seriously.png	A calm folded-paper tool garden shows useful AI supports with review lanterns.	A future concept image will show bounded, reviewed benefits without hype.	ok
8	Human-Centered AI human-centered-ai	pending-asset	/assets/journey-visuals/v0-28/optimized/human-centered-ai.png /assets/journey-visuals/v0-28/thumbnails/human-centered-ai.png	Human-centered decision shapes surround a support card, with review and governance rails visible.	A future concept image will place dignity, human judgment, review, and governance ahead of automation.	ok
8	Better AI Is a Choice better-ai-choice	pending-asset	/assets/journey-visuals/v0-28/optimized/better-ai-choice.png /assets/journey-visuals/v0-28/thumbnails/better-ai-choice.png	Folded paths and abstract levers suggest better AI as a human choice.	A future concept image will show better AI as a set of human design and governance choices, not destiny.	ok
8	Model Literate Synthesis model-literate-synthesis	pending-asset	/assets/journey-visuals/v0-28/optimized/model-literate-synthesis.png /assets/journey-visuals/v0-28/thumbnails/model-literate-synthesis.png	A compass, lantern, and folded map integrate model mechanics, evidence checking, and human responsibility.	A future concept image will close the Journey with mechanics, evidence, and human responsibility while HTML callouts stay precise.	ok
