

Prompt Life v0.28.7 Image 2 Replacement Batch 1

Generated 2026-06-14T21:27:24.800Z. This pass integrates verified Image 2 concept-card assets only when optimized and thumbnail files exist and the asset passes manifest/audit checks. Missing or unverified entries keep their current coded/generated visuals in normal learner mode.

REJECTED

SUMMARY

One Image 2 asset went live

Collective Intelligence, Extracted now renders the verified Image 2 concept card from the v0-28 optimized asset folder. Eleven manifest candidates remain marked `missing`, so their current visuals stay active. No normal learner-facing pending placeholder is rendered in this pass.

PREFLIGHT

Label Corrections

- Fine-Tuning boundary board label changed from Find to Retrieve.
- Hidden States boundary board uses Embedding. The legacy SVG fallback was also updated from Embed to Embedding.
- Attention token sentence now reads dog | saw | cat | because | it | hissed.

MANIFEST

Batch 1 Asset Status

STAGE	CARD	STATUS	SIZE	TEXT CHECK	NOTES	AUDIT
1	What Is an LLM? what-is-llm	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
1	Pretraining pretraining	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
1	Alignment alignment	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
6	Multimodal AI multimodal	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
6	The Perfect Storm perfect-storm	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
7	Collective Intelligence, Extracted collective-intelligence	live	1448x1086 2192 KB	verified	Accepted live in v0.28.7. Text check: no readable embedded text; abstract source traces are symbolic texture. Uses HTML caption and callouts for all instructional language.	ok
7	Costs We Must Count costs-we-must-count	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
7	Risk vs Myth risk-myth	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
8	Benefits Worth Taking Seriously benefits-worth-taking-seriously	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
8	Human-Centered AI human-centered-ai	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
8	Better AI Is a Choice better-ai-choice	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok
8	Model Literate Synthesis model-literate-synthesis	missing	n/a n/a	textless / not live	missing optimized asset and thumbnail as of v0.28.7	ok

Before / After and Mobile QA

Borrowed Flames

No creators, no model

Human-created traces can become training data and model patterns, while rights and responsibility remain human questions.

- **Human expression** Books, sites, code, art, journalism, forums, documentation, and research leave learnable traces.
- **Collection questions** Provenance, consent, copyright, attribution, and compensation matter.
- **Model limit** The model absorbs statistical patterns; it does not understand gratitude or responsibility.

Key takeaway:

The model did not create its abilities alone.

Before: coded Collective Intelligence visual from v0.28.3 at 390px.

VISUAL AID

VISUAL AID

What to picture

Convergence, not one spark.

Storm Front

Why LLMs arrived now

Data, compute, storage, methods, labor, and incentives converged into modern LLM capability.

- **Data** Human-created text, media, code, and documents supplied patterns.
- **Compute and storage** Hardware, data centers, datasets, and checkpoints made large-scale training practical.
- **Methods** Deep learning and transformer advances made the patterns usable.
- **Labor and incentives** Human evaluation work and market demand pushed systems into products.

Key takeaway:

Modern LLMs came from a convergence, not a single spark.

Missing asset smoke: Perfect Storm keeps the current visual.

BADGE

Prompt Life: Model Literate

Under construction while the evidence model is reviewed.

Under construction

Pending human review

Prompt Life: Model Literate is under construction. The Journey, checkpoint bank, and evidence model are being tested before any badge is issued.

DEFINITIONS PLUS RELATIONSHIPS

Glossary

Use each term with its neighbor. That is where the mental model gets stable.

PRACTICE MODE

Glossary Dojo

Practice twelve terms through definitions, relationships, and common mix-ups.

Practice 12 terms

Search terms

token, tensor, softmax...

A-Z

Learning path

Find terms alphabetically.

Accessibility

Designing tools and materials so more people can perceive, understand, navigate, and participate.

AI can support accessibility through drafting, summarization, translation, captioning, alternate formats, and assistive workflows when reviewed

BACKLOG

Remaining Visual Strategy Backlog

P0 before human testing remains: Multimodal AI, The Perfect Storm, Costs We Must Count, Risk vs Myth, and Model Literate Synthesis. P1 remains: What Is an LLM?, Pretraining, Alignment, Benefits Worth Taking Seriously, Human-Centered AI, and Better AI Is a Choice. Collective Intelligence is now live and should be reviewed with learners for concept clarity.
